Colours and Cushions

Both the Regency and Revival collections undergo rigorous surface preparation for the final coating process to give a long life finish suitable for outdoor use. All items are available in traditional satin black, blue, green, white, or brown, as illustrated. (Optional cushions are available in natural or forest green cotton drill for all chairs and benches)

Regency & Revival

ARTISTRY IN IRON

Regency

Regency is a new collection of metal reeded furniture developed by Charles Verey at Barnsley House. Based on late 18th and early 19th century authentic designs the Brighton, Greenwich, Cheltenham and Butterfly ranges of chairs and benches are complimented by the new and original Vienna and Tuscany tables. These classic reproduction items of

garden furniture are hand wrought in time honoured tradition by craftsmen at Artistry in Iron, to give standards of comfort and durability expected in the 21st century.

Attention to detail in design and manufacturing is the hallmark of these beautiful pieces. Arms are carefully curved for comfort and legs feature unique claw feet developed from

traditional models. Reeded steel has been specially rolled to invoke the classical mood of this style. Although naturally at home with traditional or period garden settings, the Barnsley House Regency Collection makes a dramatic statement in contemporary surroundings, whether in the garden, patio or indoors.

Greenwich Bench Regency (with optional cushion)

Greenwich Armchair Regency (with optional cushion)

Greenwich Scroll Arm Bench Regency

Butterfly Chair Regency

Revival

Embodying most of the classical design elements of the Regency collection, the Revival range utilises flat smooth rolled steel instead of reeded sections. Clean lines

replace the reeded, forged and scroll features as illustrated in the detailed photo shots. (Regency on left & Revival on right)
